Fountain Pen
Ink

SECTIONAL VIEW OF PEN CLOSED FOR CARRYING.

Morris W. Moore is the original and only inventor and patentee of a
Strictly Non-Leakable Fountain Pen.

MANUFACTURED BY
THE AMERICAN
FOUNTAIN PEN
COMPANY

ADAMS, CUSHING &
FOSTER, Selling Ag'ts
168 Devonshire Street
Boston, Mass., U.S.A.

We wish to call your attention to the following claims which we guarantee * * * * *

These pens, being constructed upon entirely different principles from other fountain pens, are, without doubt, the nearest perfection of any pens manufactured. All the undesirable features of other fountain pens have been eliminated.

The following claims for our pens we guarantee:—

1. That the pen is filled without unscrewing the section, or pulling out the pen, thus avoiding soiling the fingers with ink when filling.
2. That the pen is drawn back into the barrel or reservoir after using, and when the cap is turned on is absolutely AIR and INK tight.
3. That it can be carried in any position in any pocket and cannot leak.
4. That it is the ONLY clean-to-handle pen made.
5. That the pen is always ready to write the instant it touches the paper.
6. That the barrel being AIR TIGHT, the ink never thickens or dries up, and if the pen is not used for a year, it writes just as readily.
7. That we have the ONLY desirable fountain pen IN THE MARKET for LADIES' USE.
8. That our "Tourist" or Military Pen is the best pen made for travelers' or military use.
9. That we use nothing but the highest grade gold pens.
10. That anyone can use this pen a lifetime and never soil their fingers with ink.
11. That we use pure gum rubber, and the superior finish and lustre on our holders is very noticeable when compared with others made from common stock.
12. That we OWN the patents we use.

CUTS THREE-FOURTHS SIZE.

MOORE'S NON-LEAKABLE FOUNTAIN PENS.—NEW MODEL.

Long Cap, Single Turn, Tapered Nozzle, Larger Ink Reservoir.

Items of Interest to Dealers in Fountain Pens * * * * *

TH**ES**E P**EN**S being constructed upon entirely different principles from other fountain pens, are, without doubt, the nearest perfection of any pens ever manufactured. All the undesirable features of other fountain pens have been eliminated. Every person that has carried a fountain pen realizes the necessity of carrying it in the pocket **POINT UP**, as directed, or their clothing will soon be badly soiled with ink; also their hands when using it. **NOT SO WITH THIS PEN**, it being **AIR AND INK TIGHT** it can be carried in **ANY POSITION IN ANY POCKET**, when filled with ink, and cannot leak,—a feature which fountain pen users fully appreciate. Ladies can carry them in their purse or hand-bag with perfect safety, which they cannot do with other styles of Fountain Pens. The superior finish and lustre on these Pens is very noticeable when compared with others, made of cheaper stock. Every Pen guaranteed as represented, or money refunded.

...THE AMERICAN... Fountain Pen Ink

Every Moore's Non-Leakable Fountain Pen is tested and sold, filled with the AMERICAN FOUNTAIN PEN INK.

This is a very high grade of Fluid Ink especially adapted for Fountain Pens, and is recommended by Fountain Pen users as being superior to any ink on the market. The bottles have a perforated cork, with wood stopper, which is easily removed.

Use this Ink and your Fountain Pen will give you Perfect Satisfaction.

4-oz. Stands	.	.	.	\$0.25 each
8-oz. "40 "
Pints,75 "
Quarts,	.	.	.	1.25 "

Every bottle is wrapped in white tissue, and packed one dozen in strong wooden boxes. We also furnish the same in a 2-oz. Bottle and wood box with screw cover and the patent Combination Rubber Bulb and Cork attached to the glass filler. This is a very convenient method of sending by mail, where the charges in sending by express would make the cost too expensive.

PRICE, 25 CENTS EACH.

My dear Sir,

How much
pleas'd with your pens I send
herewith my check to your
order for \$5.00 (5/10) (\$5.00)

I cover your last bill
This makes
five I have purchased & I
shall want another soon
Please let me know of any
improvements you may make

Cordiasly
A. H. Kumb

Special Directions to Dealers in Moore's Non-Leakable Fountain Pens.

THIS Pen is constructed upon entirely different principles from other Fountain Pens, and it is essential that our customers should understand them thoroughly to be able to handle them quickly and safely when showing them and explain the merits of the pens.

Never start to unscrew the cap without holding the cap end the highest, thus allowing the ink to settle back to the lower end of the barrel, as when the cap is removed the ink can be easily spilled out before the pen is turned out, which closes the end of nozzle.

A little cone in top of the cap, plugs the end of nozzle when cap is screwed on tight, (see illustration on circular.)

The little pin in the cap protects the pen from injury when cap is on.

The pen should be drawn back into the barrel by the thimble instead of the cap, as the cap might pull off and the sudden jerk throw out ink.

The pen will push out straight but it is better to give it a slight turn in or out as it runs easier and smoother.

 In filling pen hold barrel at an ANGLE instead of straight up, it fills more readily.

Do not fill nearer than about half an inch of end of nozzle.

If at any time a pen should flow too fast, it is because it is nearly empty and should be filled. This, however, RARELY OCCURS.

TO TAKE PEN TO PIECES.

Grasp the sliding thimble in left hand and unscrew the little tip, then hold feed bar with nippers, and unscrew tip from that, then the feed bar will push out the nozzle end. All non-leakable pens mailed to us will be cleaned, filled and returned for ten cents in stamps.

Never leave pen on desk open. Keep cap screwed on when not in use.

Fluid inks are best for fountain pens.
